## **SO THE PUBLIC MAY KNOW:**

### **ISSUE**

- The income requirement for cityhood under RA 9009 is P100M locally generated income. The 16 municipalities failed to comply with the income requirement when they applied for cityhood.
- Some of these municipalities even have a locally-generated income of less than P10 million. In fact, one municipality failed to comply not only with the income requirement but also with the population requirement.

### **FACTS:**

- **November 18, 2008** – the Supreme Court issued its decision in the LCP Case and declared as **UNCONSTITUTIONAL** the sixteen (16) cityhood laws.
- **March 31, 2009** – the Motion for Reconsideration was denied with finality for lack of merit. The Court stated that **"NO FURTHER PLEADINGS SHALL BE ENTERTAINED"**.
- **April 28, 2009** – the Second Motion for Reconsideration was denied for being a prohibited pleading. The Court again ruled that **"NO FURTHER PLEADINGS SHALL BE ENTERTAINED"** and added that **"AN ENTRY OF JUDGEMENT BE MADE IN DUE COURSE"**.
- **May 21, 2009** – the entry of judgment was issued stating that the decision is now **FINAL AND EXECUTORY**.
- **June 30, 2009** – the Department of Budget and Management issued LBM No. 81 providing for the **FINAL IRA ALLOCATION FOR 2009** as a result of the overturning of 16 newly-created cities to municipalities pursuant to Entry of Judgment of the Supreme Court.

**The LCP Case had already been DECIDED WITH FINALITY  
by the Supreme Court.**

**The sneaky tactics being employed by the 16 municipalities to reverse  
the decision of the Court should be condemned for violating the rule  
of law and stability of the judicial system.**

**We firmly stand by the rule of law and we will continue to be vigilant  
in guarding the rights vested upon us by the final decision and  
in upholding the respect due to the highest court of the land.**

The diagram shows a substrate of thickness \$h\_0\$ and refractive index \$n\_0\$ at the bottom. A thin film of thickness \$h\$ and refractive index \$n\$ is layered on top of the substrate. An incident light ray \$E\_0\$ strikes the top surface of the thin film at an angle \$\theta\_0\$. A reflected ray \$E\_r\$ is shown at an angle \$\theta\_r\$. A transmitted ray \$E\_t\$ enters the thin film at an angle \$\theta\_t\$. The interface between the substrate and the thin film is indicated by a dashed line.

# Sexy starlet has her way with matinee idol

By Entertainment Weekly

She's got it all: the sex, the money, the fame. And now, she's got the most powerful man in Hollywood. In a move that has shocked the industry, the 25-year-old starlet has signed a multi-year deal with the studio that has made her a household name.

The deal, which is worth a reported \$10 million, is the most lucrative in the history of the industry. It includes a \$5 million advance, a \$5 million per picture fee, and a \$5 million bonus.

The deal also includes a clause that allows the starlet to produce her own projects. This is a rare privilege in the industry, and it is a sign of the starlet's growing power.

The deal is a landmark moment in the history of the industry. It shows that the starlet is no longer just a sex symbol, but a powerful force to be reckoned with.

The deal also includes a clause that allows the starlet to produce her own projects. This is a rare privilege in the industry, and it is a sign of the starlet's growing power.
